Business Information

NOT OPEN ON SUNDAYS. We do not have help to dig stock on Saturdays but if you want to pick up stock on Saturday let us know long enough in advance so we can have it ready for you. Closed from Saturday noon to Monday morning.

THESE PRICES are in effect Fall 1961, Spring 1962.

ALL OUR STOCK is fresh dug for each order. None of it is in storage except strawberry plants.

PRICES named in this Trade List apply only to orders placed by nurserymen, florists, and dealers. Maryland customers are subject to 3% sales tax or send your License Number. All delivery costs are to be paid by purchaser.

PACKING. Boxes and bales will be charged costs of material and labor used. We will add this cost to your invoice. **This cost applies whether you remit with order or buy on time terms.**

CLAIMS, if any, must be made immediately upon receipt of goods, and if just, made satisfactory, but in no case are we responsible for more than the purchase price of the stock in question. **We will not be responsible for failure to fill orders in full or for any damage or delay to stock after delivery to the transportation company.**

TERMS. Net, no discount or net 30 days from date of shipment to those of known responsibility **but must have satisfactory business references from others or remittance must accompany order.** Those desiring stock shipped C.O.D. will please remit **one-fourth** the amount of their purchase when ordering. Other terms by special arrangement.

NON-WARRANTY. We give no warranty, expressed or implied, the purchaser assuming all risk and responsibility of transportation, growth, planting, life of stock or any other matter on any stock we sell. We send out good stock, carefully grown and packed but cannot control conditions after it leaves our care. We exercise the greatest care to keep our stock true to name and are willing to replace on proper proof any stock that may prove otherwise, or return the amount paid us for such stock, but it is mutually agreed that we shall not at any time be liable for any greater amount.

TELL US HOW TO SHIP, whether by express, motor truck, or railroad freight. If by motor truck or railroad freight, tell us the route or over which line you want delivery made. If you do not give this information we will use our own judgment as to route and methods to use. **It is mutually agreed that whether you name the route or leave it to our own selection, we will not in any way be responsible for time or condition of delivery and our responsibility ceases upon our delivery to the transportation company.**

HARDINESS OF PLANTS. When hardiness of plants is mentioned herein it applies to this section.

TIME OF SHIPMENT. We ship most every week in the year with the possible exception of during the winter when bad weather makes it impossible, although this is very seldom. Of course, there is a regular season for shipping the different plants, but if you want them out of season and are willing to take the risk of good delivery, we will pack with the utmost care and get them off to you at most any time you want them. Risky shipping in hot summer.

Plan to Visit Our Nursery

We will certainly be glad to have you come to see our stock for yourself. We believe you will find it compares favorably with that grown by other nurseries. Some of our customers have told us it is better than is furnished by some others. We are on the Eastern Shore of Maryland, 100 miles south of Wilmington, Delaware, 100 miles from Kiptopeke-Norfolk, Va., ferry, 90 miles from Annapolis, Md., via Chesapeake Bay Bridge, 150 miles from Baltimore, Md., via Elkton, Md., 225 miles from New York, N. Y. We are on U. S. Route 50, 10 miles east of Salisbury, Maryland.

Ornamental Stock

1 to 5 at each rate, 5 or more at the 10 rate, 25 or more at the 100 rate, 250 or more at the thousand rate.

If a variety is listed at 10 rate and not each rate there will be an additional charge of 15 cents per plant if less than 5 are ordered.

Items marked by an asterisk (*) are classed as Lining-Out stock.

ACER—ASIATIC MAPLES

We believe the following is the largest collection of Asiatic Maples being offered to the trade at wholesale prices by any grower.

2 yr. grafted plants at $2.50 each, five of a variety at $2.25 each.

Our stock of these is limited and orders will be accepted only as long as stock lasts.

ATROP. YEZO-NISHIKI. Blood-red leaves with vermillion variegations.

ATROP. NOMORA-NISHIKI. Dark red leaves with brown and light variegations.

ATROP. DISSECTUM. Blood-red leaves delicately cut, feathery like, weeping branches and graceful.

ATROP. DISSECTUM MIOUN. New. Very good. Red leaf.

DISSECTUM PALMATIFIDUM. Green leaved delicately cut, weeping.

DISSECTUM WATERFALL. One of the best green cut-leaf varieties.

AOYAGI. Yellowish green palmate leaves.

AUREA-VARIEGATUM. Green leaves with yellow and yellowish-green variegations.

KOSHIMINO. Green narrow leaves with cut, several leaves spouted from one leaf-stalk.

OKUSHIMO. Deep green palmate leaves with up-curled edges.

OSAKADZUKI. Large palmate leaves, yellowish light green, changing to blood-red in autumn.

RETICULATUM. Palmate leaves yellowish white with green veins appearing very distinctly, showing net work.

ROSEUM. Green leaves with occasional deep-pink margin.

ROSA-MARGINALIS. Small green leaves, showing a pink margin as the tree becomes of size.

SAGARA-NISHIKI. Green leaves with a distinctive marking of pink and yellow mixed, spotted margin.

SCOLOPENDRIFOLIUM. Green leaves cut to center, narrow leaflets.

VERSICOLOR. Green with white, pink and light green variegations.

YATSUFUSA. Very small palmate leaves.

JAPONICUM-JUNIHITOE. Light green leaves, obtusely cut.

JAPONICUM-FILICIFOLIUS. Handsome variety with deeply lobed leaves, green in summer, rich ruby-crimson in fall.

Tree Peonies

Because of their novelty and great beauty, Tree Peonies are rapidly becoming one of the most desired plants. They bloom earlier than ordinary Chinese Peonies and their flowers are of immense size. Prices are per each plant.

LET $100 EARN $1,000

We believe $100 spent in our lining-out stock will increase in value from $1,000 to $1,500 in three years. The increase should be practically the same whether you invest a less or greater amount. By growing the stock yourself you have it on hand so you can let your customers see just what they are buying and you save the freight and packing charges. We will gladly help you make the best selections. Come see our stock if you have the time.

*EDCO IRON

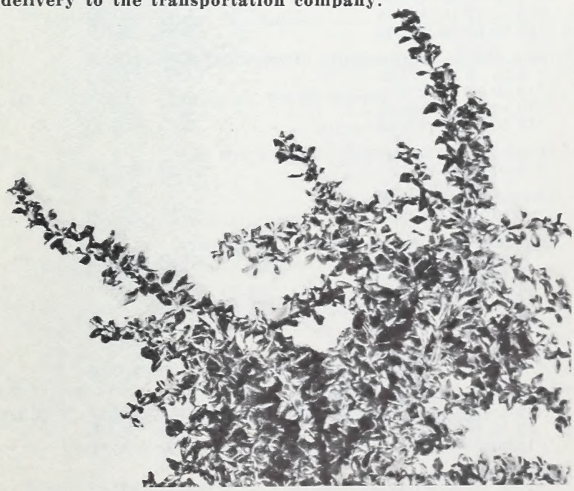
For experimental use in the control of chlorosis (lack of chlorophyl) in azaleas, gardenias, roses, citrus crops, etc.

Results to date have shown Edco Iron to be very effective in correcting chlorosis in the above crops. Chlorosis may be caused by the excess or deficiency of several major or minor nutrient elements in the plant besides iron, and it may be caused by an excess of water or its lack, but Edco Iron commonly seems to help correct the effect if not the cause of these several conditions.

Full directions for using with each lot.

Prices: 1 lb. $2.30: 10 or more lbs. at $2.00 per lb.

CLAIMS, if any, must be made immediately upon receipt of goods, and if just, made satisfactory, but in no case are we responsible for more than the purchase price of the stock in question. **We will not be responsible for failure to fill orders in full or for any damage or delay to stock after delivery to the transportation company.**



Berberis verruculosa

We try to secure our propagating wood from only the very best type of plants, and by doing this we can furnish you stock that should be of the best that it is possible for you to get anywhere, regardless of price.

CYTISUS BATTANDIERI

A splendid tall shrub, perfectly hardy. The olive-green shot silver leaves are like a Laburnum and the flowers are in cone shaped clusters, which in summer have a scent of ravishing sweetness reminding one of pineapple. The upstanding racemes of bright golden-yellow pea flowers are indeed a beauty to behold.

Our 3-year seedlings bloomed this past season and we are very favorably impressed with it. We have been selling all we can grow and only have the following to offer this season: 1 yr. seedlings 6 to 15 in. at $5.00 per 10, $35.00 per 100; 18 to 24 in. at $1.00 each, $7.50 per 10; $50.00 per 100.

AUNT MARY'S SWEET CORN

THE SWEET CORN SUPREME

This is the most wonderful Sweet Corn we have ever grown. One grower describes it as "the best Sweet Corn in the world."

Has the most delicious flavor and keeps a long time before becoming too hard to use. In fact, usually requires artificial heat to cure it for seed purposes.

Aunt Mary's Corn, by its excellent quality, sweetness, and flavor makes a stronger appeal to the Corn-loving public than most any other variety and that appeal continues long after you are tired of other Sweet Corns.

Liberal size packets, 35c each; 3 for $1.00, postpaid.

$2.00 per pound, postpaid.

If after growing this wonderful Sweet Corn you are not entirely satisfied, we will refund every cent you paid us for it.

This nursery was started just 56 years ago by the present owner. We have made many mistakes but we believe our customers will agree that we have always tried to give a dollar in value for every dollar received. This will be our aim as long as The Tingle Nursery Co. stays in business. If you have any reason for complaint, tell us.

DAVIDIA INVOLUCRATA—DOVE TREE

Dr. Ernest H. Wilson describes the Dove Tree in his book "Aristocrats of the Garden" as follows: "The distinctive beauty of the Davidia is in two snow-white connate bracts which subtend the flower proper. They are always unequal in size—the larger six inches long by three inches broad, and the smaller three and one half inches by two and one half inches; they range up to eight inches by four inches and five inches by three inches. At first greenish, they become pure white as the flower matures, the flowers and their attendant bracts are pendulous on fairly long stalks, and when stirred by the slightest breeze they resemble large butterflies or small doves hovering amongst the trees and are so freely borne that the tree from a distance, looks as if flecked with snow."

This is undoubtedly one of the most interesting trees grown. We have been unable to accumulate any sizeable stock, the interest being so great for it. Last season we sold over 400 with only the name and price in our price list. This season we have about 1000, probably again will not have enough. Our price is very reasonable considering the scarcity.

Grafting Is Easy

You have often wanted to propagate some plants of a scarce or high priced variety but did not have the proper facilities to do it with. With a new outfit we are offering, you can do it yourself, as easily as making an old-fashioned graft. You take a branch of the shrub or tree you wish to graft (leaving it on the parent plant) girdle the branch or twig, put damp peat moss or damp sphagnum moss around the girdled part and wrap it tightly with this new waterproof plastic (in sheets) and tie it, top and bottom, with rubber bands. Generally within six to eight weeks the twig is rooted ready to pot. It requires no watering or other attention until ready to pot. Complete outfit (enough plastic sheets and rubber bands to make 100 grafts) with complete instructions how to do the grafting, for $5.00 postpaid.

The demand for good holly is growing every year. Be prepared. Good holly is still scarce.

RED LEAF JAPANESE BARBERRY

(Berberis Thunbergi Atropurpurea)

We have a very nice lot of Red Leaf Japanese Barberry in lining-out sizes. Last season did not have near enough to fill our orders for this but have a larger stock this season and will appreciate your orders for it.

The Rare Franklinia

A Very Unusual Flowering Tree

Each twig develops at its tip a cluster of buds of graduated size, like overgrown greenish pearls. Early in August the largest of these attain the size of marbles. Then the guard petal folds back, still retaining its firm spherical form. From this shelter emerges four other petals, satiny, snowy white, elaborately frilled and pleated. The snowy, frilly chalice, three inches in diameter, holds a sumptuous mass of orange-gold stamens and breathes forth a delicate, balmy fragrance.

Each flower lasts two or three days and then drops cleanly. **There is a constant succession of blooms till hard frost.** We frequently get the unusual effect of a tree clad in crimson, autumn foliage and abundantly starred with white flowers.

The Franklinia begins blooming when not more than 3 or 4 feet high. Young trees under favorable conditions increase in height a foot or more each season. Specimens 30 feet high are known. It develops naturally with several trunks, but may easily be trained to a single trunk by removing the sprouts which start from the base.

Franklinia prefers full sun, has proved entirely hardy about New York and hardy in favorable locations about Boston, Mass., and in Ohio.

A FASCINATING HOBBY

Growing Azaleas is a hobby which provides an ever increasing source of interest. There are so many species to be had and so many almost breath-taking new hybrids being produced, that one is amazed at the magnificent display that we may have with only a small space of ground and a few of the newer plants that are now being offered. If you want a stimulating (and profitable) hobby that grows more interesting, beautiful and valuable every year, then grow azaleas.

HOLLY (Ilex)

For many years we have been urging nurserymen to grow more holly. Fifteen years ago there was not very much demand for holly. If you will refer to our catalogs about that time and since, you will find we said, "The nurseryman who will grow a collection of Hollies to a specimen size will have something he can sell, whether times are good or whether they are bad. There is always a demand for them, and there will be as long as any other plants will sell."

Try to buy nice holly now, see how scarce it is. We find demand increasing each season.

	Each	10	100	1000
AQUIFOLIA. The well-known English Holly. Very glossy leaves, with large triangular spiny teeth, fruit a bright red. A hardy strain.				
3 in. pot plants	$1.00	$5.00	$40.00	
4 in. pot plants	1.25	10.00	75.00	
AQUIFOLIA BISEX. A variety of English holly with both male and female flowers, thus producing berries on single plants. This is much in demand.				
3 in. pot plants 2 yr.	$1.00	$8.50	$75.00	
AQUIFOLIA Femina. The cuttings in this lot were taken from trees when not in bloom or fruit, but are from named varieties. A very good selection and buy, if not particular in having the variety named. Berry bearing.				
3 in. pot plants 2 yr.	$1.00	$6.00	$50.00	
AQUIFOLIA Ferox—"Hedgehog Holly". Leaves with short teeth and numerous small spines on the upper convex surface. Most unusual. Male.				
3 in. pot plants 2 yr.	$1.00	$7.50	$60.00	
AQUIFOLIA J. VAN TOL. Another form of English Holly with dark green leaves and occasional teeth. Berries are deep red, large, and showy. Heavy fruiter. One of the best. Probably the best for here in the East.

3 in. pot plants 2 yr.	$1.25	$11.50	$100.00	
AQUIFOLIA SILVER LEAF. The darker green center with bright silver edged leaves, makes this a handsome Holly. The fruit is red. One of our best sellers.				
3 in. pot plants 2 yr.	$1.00	$7.50	$65.00	
AQUIFOLIA TEUFIL'S ZERO. Mr. Teufil told us this was one of his hardiest ones and a good commercial cut variety. Branches weep or droop.				
3 in. pot plants 2 yr.	$1.00	$7.50	$65.00	
AQUIPERN BRILLIANT. A cross of Aquifolia and Pernyi with brilliant red berries.				
3 in. pot plants	$1.00	$6.00	$40.00	
AQUIPERN FEMINA. A cross of Aquifolium and Pernyi with characteristics of both parents. Leaves plentifully toothed and a lustrous green.

AQUIPERN MALE. A male type of above.				
3 in. pot plants 2 yr.	$1.00	$5.00	$35.00	
CILIOSPINOSA MALE. Good foliage and good for pollenizing Aquifolia, Ciliospinosa, Cornuta and Pernyi.				
3 in. pot plants 2 yr.	$1.00	$7.50	$60.00	
CORNUTA BUFORDI. A form of Cornuta, but spikes on the leaves are not so prominent and it is more hardy than the type. Berry-bearing.				
3 in. pot plants 2 yr.		$4.50	$40.00	$350.00
CORNUTA FEMINA (Chinese Holly). A berry-bearing form of Cornuta. Compact pyramidal grower. Leaves dark glossy green, oblong, with 3 strong spikes at the dilated apex, and 1 or 2 on each side; scarlet berries. One of the showiest.

AS GOOD AS CAN BE GROWN

We are exerting effort to produce the very best stock that can be grown, and in our fifty-one years' experience we believe we have never offered bigger values than we are offering this season. Even with the short supply of Lining-Out stock we have kept our prices at a low level. We feel sure you will be more than pleased with the stock we send you if you give us your order.

We try to secure our propagating wood from only the very best type of plants, and by doing this we can furnish you stock that should be of the best that it is possible for you to get anywhere, regardless of price.

MALUS — FLOWERING CRABS

The Flowering Crabs are among the most charming of spring trees. They are not only beautiful when in blossom but many carry most ornamental and richly-colored fruit in the autumn. Most of the Crab family form graceful garden trees of medium size. They are quite hardy and require no particular cultivation, thriving best in a good loam and full sunshine.

THE SARCOCOCCA

Useful Evergreen Shrub

Sarococcca ruscifolia, Fragrant Sarcococca, is not new, and may be found in a number of nurseries, but it is not talked about much. Most of us use the species **S. hookeriana humilis.** Because its popular name is "Fragrant Sarcococca," it deserves more attention by those who have a leaning toward fragrant flowers. Except for that, there does not seem to be much difference. **Ruscifolia** is a little taller than **humilis,** and its leaves are smaller. Its white flowers are in four-flowered racemes, and the fruit is dark scarlet instead of black appearing in September and November, which is earlier than the other. Usually **Ruscifolia** is grown for its handsome glossy foliage and low height. It does well in part or full shade, which is an asset.

This nursery was started just 56 years ago by the present owner. We have made many mistakes but we believe our customers will agree that we have always tried to give a dollar in value for every dollar received. This will be our aim as long as The Tingle Nursery Co. stays in business. If you have any reason for complaint, tell us.

TAXUS (Yew)

The Taxus are undoubtedly the most popular and useful of all the ornamental evergreens. We have been growing them extensively a good many years and the demand keeps increasing.

The English Yew (Taxus baccata) is not reliably hardy in the north, and many do not realize that the Japanese, and many forms of Media, are perfectly hardy in and around Boston, and the Japanese even in northern New England.

They are not so particular as to character of soil except that it should not be too wet, but they do appreciate plenty of good plant food. They are immune to many insect pests and plant diseases so destructive to many other evergreens.

The Yew in its many species and forms can well be used in most all places where any other evergreen will do well.

We have small quantities of larger sizes of many of these varieties but are too bulky and heavy to ship. These are for truck shipment only.

We honestly believe you will do well to plant and grow on some of these Yews.

Azaleas

Sizes of azaleas are as follows: 2 in. pot plants are a rooted cutting grown in the pot one season, 2 yr. size grown one year in pot and one year in field beds, 3 yr. size have been grown in pot one year and field beds two years and 4 yr. size grown in pot one year and field bed three years.

KURUME AZALEAS

The Kurume Azaleas are one of the most showy of all flowers for the garden. They are also well adapted to forcing —thousands of them being sold for Easter, Mother's Day, and Decoration Day. They are comparatively easy to grow and make such a wonderful display that the demand is constantly increasing. Many of the varieties are hardy out-of-doors as far north as Long Island. They are extremely floriferous, and in season, the blossoms completely cover the plants. The colors are almost every hue and shade except yellow, as you will find below.

1 to 5 at each rate, 5 or more at the 10 rate, 50 or more at the 100 rate, 500 or more at the thousand rate.

VUYKIANA AZALEAS

A new race of very large flowered Japanese Azaleas, produced by crossing hardy Azalea Malvatica hybrids with Azalea Mollis. Sturdy growers, prolific bloomers. From the information we have they are much hardier than the Kurume Azaleas. Flowers range from 2 to 2½ inches. All bloom late midseason. Plants grow tall.

HELENA VUYK. Deep carmine rose.			
* 2 yr. field beds XX trans.	$3.50	$27.50	
PALESTRINA. We are recommending this to use in place of Ledifolia Alba for a tall growing white bloomer. Last season when Ledifolia Alba were both bud and bloom killed, Palestrina came through without any wood damage and plenty of white flowers. Try it for a hardier tall white.

GABLE'S HARDIER AZALEAS

Mr. Joseph B. Gable of Pennsylvania has spent almost a lifetime working with Azaleas and Rhododendrons. Many years ago he started breeding azaleas with the hopes of producing a hardier type of evergreen azalea in a good color range than then available. He has had wonderful success and is now recognized as the leader in this field.

As to hardiness: these varieties will average hardier than Hinodegiri and Amoena and much hardier than the other Kurumes. All have lived and flowered in the open field where they have withstood temperatures of twenty below zero and more in the past few winters with only negligible injury to a few. Most of them were uninjured.

KAEMPFERI HYBRID AZALEAS

In these new Kaempferi Hybrids—the result of crossing Kaempferi and Malvatica—there has been obtained the hardiest type of evergreen Azalea, with a good range of form and color in the flowers so far achieved. Several years' tests have demonstrated that these new Hybrids are just as hardy as Kaempferi, until now the hardiest of the evergreen sorts. In connection with these Hybrids we suggest you try out the new Gable varieties we are offering.

CHUGAI AZALEAS

A new group from the Chugai Nursery Co. near Osaka, Japan. These are late flowering. Flowers are usually variegated, white or pink ground with red, lilac or purple stripes, white base with colored margin, or purple with white variegation and edge. These need more and wider trial before we can recommend planting in exposed or colder sections.

The following descriptions were furnished us by The Chugai Nursery Company.

	Each	10	100	1000

U. S. D. A. AZALEAS

Some years ago the U. S. Dept. of Agriculture introduced a collection of Azaleas mostly from Japan. We have been growing these Azaleas many years and have selected the following varieties as the best ones in this collection. They are well worth trying.

BENI KIRISHIMA. Old rose, semi-double.		
* 2 in. pot plants	$2.00	$15.00
* 2 yr. field beds XX trans.	3.50	27.50

GROWING GOOD AZALEAS

Azaleas will grow in full sun or in shade. In the sun you will have brighter colors and growth will be shorter. We prefer a little shade if convenient. The small pot-grown plants should be planted about ten or twelve inches apart in a prepared bed consisting of about equal parts of good acid soil and peat moss or rotten leaf-mold, with about one-half shade.

Azaleas like acid soil with plenty of peat moss or leaf-mold in it. As a fertilizer rotten cow manure, cotton-seed meal and tankage are good. Use this in early spring and keep well mulched with peat moss or leaf-mold and keep the plants well watered during dry weather.

For scale and red spider use Volck, one to fifty.

If your soil is not acid enough we suggest you use Aluminum Sulphate or Sulphur.

ALUMINUM PLANT TAGS

Very convenient to use. Lasts years.

Thin aluminum which permits easy embossing with ordinary lead pencil. Permits writing label right in field. 100 for $3.50, 500 for $15.00, 1000 for $25.00 Postpaid.

GLENN DALE AZALEAS

We began growing these Glenn Dale Azaleas in 1941. During the past few years, since they are becoming better known, the demand has increased rapidly. Most all the reports we get from the growers are very enthusiastic. They are doing well in some sections where the evergreen varieties were not supposed to grow.

Many who have seen our fields of these Glenn Dale Azaleas in bloom expressed their amazement and joy at their size, coloring and quantity of bloom. You folks who have been dealing with us for the past many years know we do not recommend a plant unless we really believe in it. We do suggest you try some of these Glenn Dale varieties if you can grow any of the other evergreen azaleas and while you may have some disappointments we feel sure you will be greatly pleased with their growth and beauty.

These one-line descriptions do not tell you much but we do have a special booklet that describes them much more fully. Sent on request—no charge.

Sometimes when Azalea flowers are described as striped or flaked on white they will appear as a solid color. When this occurs the branch should be cut out. This seems inherent with the variety—not any fault of the nurseryman.

Capital Letters after variety name indicate sizes available in that variety, as capital B means 2 in. pot plant size, capital C means 2 yr. field beds XX trans., and so-on. We hope you will understand this system of indicating sizes as it saves a lot of space in catalog. We have been using this system for Crabapples several years and it seems to be working fine.

We will furnish one to five plants of a variety and size at each rate; five to 25 of a variety and size at the ten rate; 25 or more of a variety and size at the 100 rate.
